Microtac MFS 800 All Steel with Cementitious Infill Panels (Bare)

Understructure:

Cornerlock

Floor Height (mm):

150

Project Description

1 and 1A Depot Close is a purpose-built facility for HP Singapore by Mapletree Industrial Trust (MIT) for Hewlett Packard (HP) Singapore.

Microtac Systems participated in the project through the supply and installation of the access floor system. Our floor system is designed to provide a uniform and excellent load resistance for the occupiers.

In addition, our floor panels have high environmental efficiency, having been rated as excellent (3 ticks) under the Singapore Green Building Product (SGBP) labelling scheme and is Green Label certified by the Singapore Environment Council (SEC). Thus, our floor system complements the other environmentally friendly features of the building.
